Hello Families and Students,
Welcome to the 6th grade! We are so excited to see your faces!

**Before Monday Morning:**
Students need to go on their emails and join all their google classrooms. There will be invites in their inboxes. Ideally, students should have a paper copy of their schedule beside their computer to help them navigate through their 9 period schedule. This will lead to a less stressful first day!!

**First Day:**
On Monday September 14th, your child will attend their first google meet with their homebase teacher at 9am.

Use the link on your Homebase google classroom to get into the Google Meet. Homebase teachers will help students transition to their 1st period class.

**General Information**

**Google Classroom:**
- Each teacher will have a Google Classroom for each period they teach which will be used to disseminate information and assignments, manage meetings, and facilitate instruction.
- Emails have been sent to all students inviting them to join each of the Google Classrooms.
- Students can also access our classrooms from their chromebooks at classroom.google.com.
- Parents/guardians are invited to join these Classrooms to receive regular updates.
- The following video gives an overview of Google Classroom. Click here for link.

**Daily Procedures:**
- Students are expected to log on to Google Classroom at the beginning of their scheduled class and join the Google Meet. The link can be found in the banner of the respective classroom and will only be active during class time.
- Once students join the Google Meet they are expected to be physically present until released by the teacher.
- Teachers will remain in the Google Meet for the duration of the class period to provide support as needed.

**Supplies:**
For our remote learning, we request that your child have:
- pencils with erasers
- several notebooks
- earbuds (to help limit noise/distractions around them at home)
- TI-30X IIS scientific calculator (please invest in this model for instructional purposes - if this isn't possible please contact Ms. Anson)

**When the time comes for in person instruction we may request some additional supplies.**

We look forward to a great school year. We hope to see you soon.

Thank you,
Team 6
